Alex
Andrew

possible fittings.
1) male bugger
2) left shoes

Skycycle stand for bridge.

Put ping balls + racket.

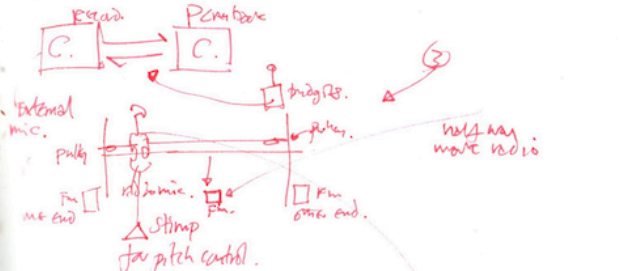

Against door or something a cross the bars.

Trevor's delay unit a couple of cassette/radio.

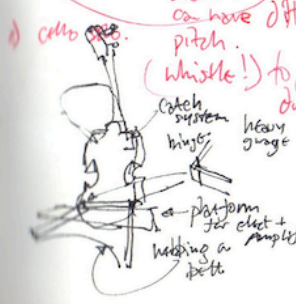

3 assistants.
1) can push or pull
2) by bicycle
3) in a car at speed.

Need to be able to change pitch.

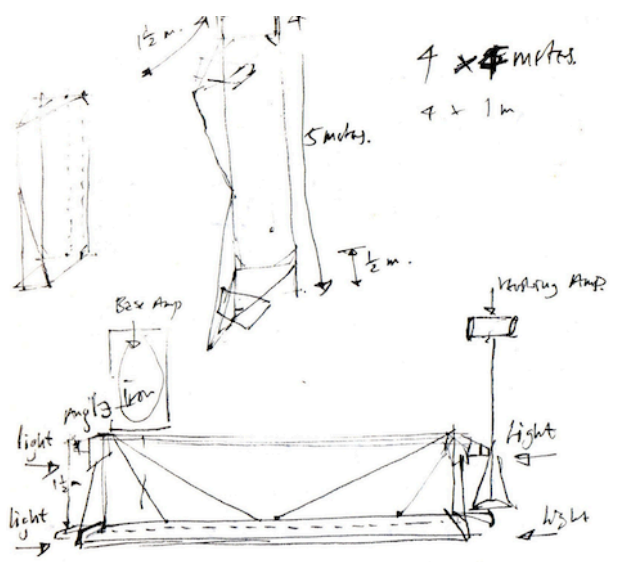

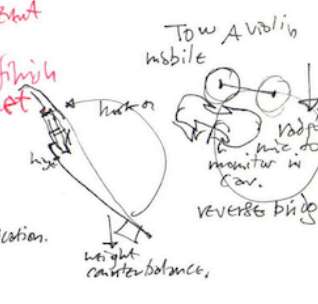

owner of shop for hire of male bugger. Squash or tennis player.

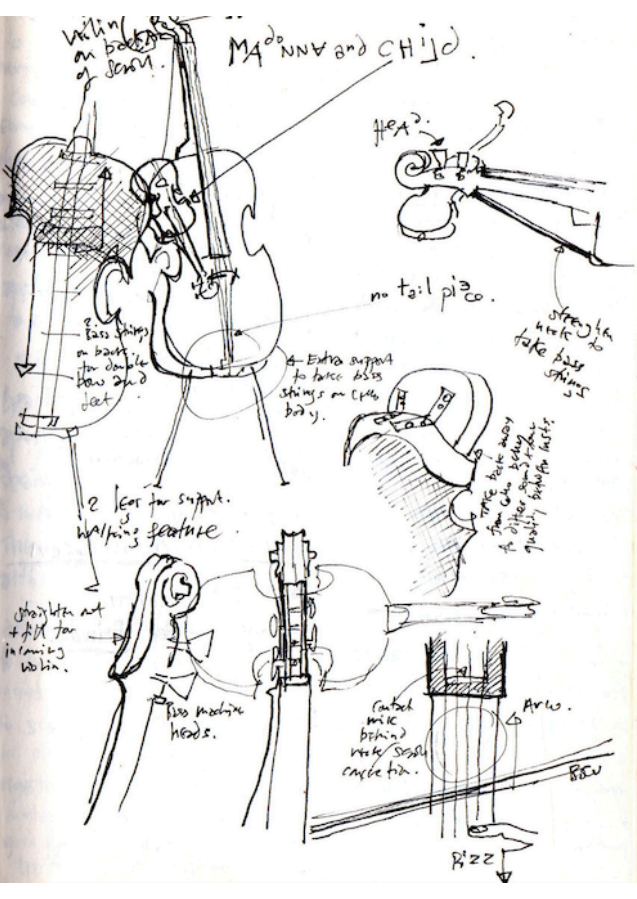

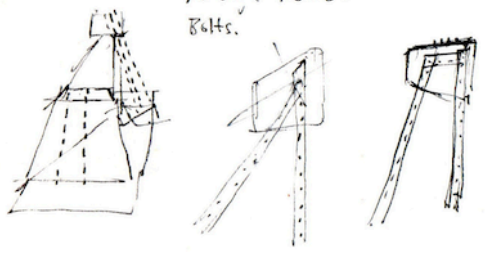

Use violin up racket. phospos. Long for separates violin against a board which can have different pitch. (Whistle!) to finish duet.

Also contact with long lead to use stinger.

All angle frame. Bolts.

MA^{do} NUN and CHILD.

Fok Muri

next to
speakers
+ Amps.

- ③ All piano wire.
- ④ All contact mics off cello
- ⑤ Fans
- ⑥ power leads.
- ⑦ leg guards. (cricket pads) + coat the surface.

Just sort of resonator on each of the steps.

2 or 3 different violins to run up and down strings. (step ladder.)

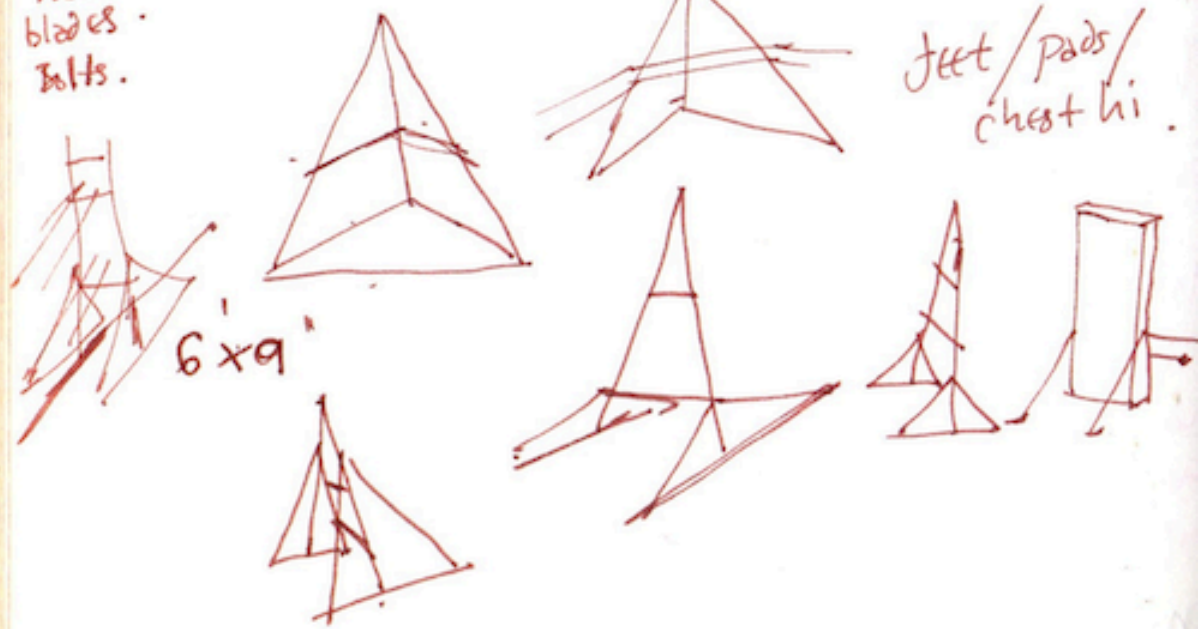

What about ~~the~~ floor strings. old speaker box.

 of some kind.
 and back
 we interact with it.

For outside the main.
 I string
 this going all the way through out.

we use very small
 springs. come to vibrate
 string. I pump and I started
 signal through it.
 or buy strong electric motor. in # main.
 get continue to create bones or frames
 very slow movements - to fast cells

Tilt states coming in
 / a surf or delivery into
 water from a boat
 non reactive piece.

K's sculptures
 Float.

Flutter harp
 or Flutter volume?
 How to change pitch.

Resonator
 tube
 mic inside pipe
 so no wind noise.
 also body heat
 make low technique.
 play back thru vis

of course you can't play
 the violin under water
 - it needs air!
 submerging the resonator
 (while leaving strings above)
 is good phrasing value though.

the perfect
 sailor -
 very good
 stability and
 lies horizontally
 Perfect
